

Shammika Wijesinghe

Computer Engineering Undergraduate · DevOps & Cloud Engineering

Kandy, Sri Lanka | [linkedin.com/in/shammikawijesinghe](https://www.linkedin.com/in/shammikawijesinghe) | medium.com/@sawTech

Profile

Computer Engineering undergraduate with hands-on experience in AWS cloud infrastructure, DevOps automation, event-driven systems, full-stack engineering, machine learning and high-performance computing. Interested in reliable, observable and scalable systems.

Experience

Intern DevOps Engineer — GTN Tech

6 months

- Designed and implemented AWS-native event-driven architecture and Terraform infrastructure across multiple environments.
- Developed and optimized GitLab CI/CD pipelines; improved monitoring, logging and deployment validation for production-ready environments.
- Worked with AWS, Terraform, Ansible, Docker, Datadog, Grafana, Alloy, Fluent Bit and Linux.

Education

BSc Engineering — Computer Engineering, University of Ruhuna

Vice-captain, faculty athletics team; member of university cricket and athletics teams.

Selected Projects

Parallel Image Processing — Serial C++, OpenMP, Pthreads, MPI, hybrid MPI/OpenMP and CUDA benchmarking for denoising and edge detection, with React/Node.js UI.

Interpretable Yoga Assistant — Browser-based pose recognition, stability analysis and corrective feedback using MediaPipe and explainable geometric features.

Taprobana AI — AI travel recommendations, expense tracking, translation and smart mapping with Next.js, Firebase and Llama; CryptX 1.0 champion.

Smart Garbage Sorting Machine — ESP32-based dry, wet and metal waste sorting using proximity and moisture sensors with a real-time dashboard.

Parkinson's Disease Detection — SVM (90% test accuracy) and KNN (92% test accuracy) classification study.

Honors

Champion, CryptX 1.0 (2025) · Champion, InsurgeX 1.0 (2024) · Semi-finalist, IDEALIZE'24 · 3rd, Predictia 1.0 weather classification · 2nd runner-up, Sustainable Building Design (2023) · All-island 2nd, Australian National Chemistry Quiz (2019)

Certifications & Skills

Google LLM · Google Data Foundations · IBM DevOps Essentials · freeCodeCamp Responsive Web Design · DeepLearning.AI Supervised ML · Google UX Design

Technical: AWS, Terraform, Ansible, Docker, GitLab CI/CD, Linux, React, Node.js, Python, C++, CUDA, MPI, Firebase, MySQL
